*The new era of boating*

# SAXDOR | 200

*“There are other ways in which the Saxdor 200 Sport set in motion, with various wow factors, intensified within the design. Choose the right colour and seat options for your comfort.*

*The multi-awards winning Saxdor 200 pioneered the new driving experience of all time”*

## The new era for sport boats

They say that if something looks too good to be true then it usually is but the Saxdor 200 Sport is the exception to that rule. It doesn't seem possible that a boat with this much style, usability and performance could cost just €22,140 with a 100hp outboard engine but that is exactly what Saxdor has achieved with this model. Crucially, it doesn't appear built to a price in any way shape or form and uses top class materials and components to ensure it feels a cut above its 25ft competition. can be configured as a sociable dinette, a huge sunpad or three separate rows of forward facing seats.

Launched in March 2020, the 200 Sport was met with rave reviews from the press and picked up awards at Best of Boats 2020, the European Powerboat of the Year Awards and Motor Boat & Yachting's very own Motor Boat Awards. It's easy to see why, given the boat's outstanding ride and handling for one of such diminutive proportions and the flexibility of its deck layout to suit individual customers' needs.

## The pocket rocket

On the water, the twin-stepped performance hull is the star of the show and punches well above its weight in the face of challenging sea conditions. The soft-riding and exceptionally grippy hull is matched to a selection of single outboard engines, from the entry-level 100hp that will give a top speed of 34 knots, to the 175hp version, which has a comfortable top speed of 45 knots. The 3.4-litre V6 Mercury, which is the top of the range, delivers storming performance and, thanks to a fly-by-wire throttle, superb control both at speed and when manoeuvring the boat around a marina or on to a trailer.

The 200 Sport is well suited to trailer boating; with a weight of around 1,000kg including the outboard, fuel and cruising stores, it can be towed behind an ordinary family car instead of a large SUV that some of its heavier rivals require. The 200's lightness and self-draining deck also make it the perfect tool for watersports and for use as a fast and versatile superyacht tender, ideally suited to island hopping and accessing hard-to-reach destinations. In addition to plentiful built in deck storage, the boat can be specified with board racks and rod holders to create the ultimate fast water toy.

## *The sleek design of a boat and a jet ski*

Charm, modernity, power, design and sportiness. This is Saxdor 200 and you couldn't ask for more. The Saxdor 200 was designed with "serious fun" in mind. It is a superior example of the non-traditional thinking and the innovative power that is the spirit of Saxdor Yachts. This remarkable personal watercraft combines our trademark qualities of sexy design, effortless steering, first-class technology and peerless comfort in a jaw-dropper package. The twin-stepped hull design comes into play immediately, with the 100hp pushing out some decent performance figures. The console is stylishly shaped to match the surrounds and has a nice wide dash panel to

suit twin 9in units and gauges. The wraparound windscreen is smartly designed for high-speed open water conditions, and the sunshades for and aft provide additional shelter as needed while at rest. An extended sunpad rests on the foredeck and the dinette converts into a sunbathing space via flip-up backrests. The bow also holds an integrated anchor and windlass to maximize the available space up front. Saxdor 200 offers 3 different seats layout of triple jockey seat, side by side four seater and soon a new limousine style seating.

# SAXDOR 200

Saxdor 200 Sport is the WINNER of the European Powerboat of the Year 2021 in the category Up to 8 m. The general criterias are workmanship, safety, driving behavior, design, distribution of space, and price-performance ratio.

The international jury of the Best of Boats Awards has decided upon the very best motorboats of the model year 2020:

Saxdor 200 Sport is the WINNER in the category of Best of beginners 2020.

Saxdor 200 Sport is the FINALIST of the Motorboat Awards 2021 in the category of Sportboats.

Saxdor 200 Sport was awarded a special nomination "HIGHLY COMMENDED"

*“Modern and fun with sheer power, genuine stability and maximum portability make the iconic Saxdor 200 ideal for all-day fun-filled excursion, and easily navigating a busy harbour”*  
*-Saxdor 200 in Venice 2021*

*The Saxdor 200 is an ideal boat for charter and for first-time boat owners. At the right price point with its usability and driver friendliness, the boat makes a good fit for charter platform and for beginners.*

*The usual matchless acceleration and excellent mobility of the Saxdor 200 are assured. A boater can adapt the design to any variant on an open, hardtop, T-top, or Targa.*

*Saxdor 200 Design Sport is delivered with a versatile package and multi-functional fun boat. Try wakeboarding or water skiing, or treat yourself or your guests to a quayside restaurant in a jiffy – the watercraft can carry four passengers with the side-by-side seat layout*

## YACHTS

*The new era of boating*

SAXDOR 320 GTO

SAXDOR 320 GTR

## *Luxury style without luxury price*

The Saxdor 320 GTO and GTR are walk-around deck, the Saxdor 320 GTO with a T-top while the Saxdor 320 GTR provides an open-air space where you can enjoy the sun to its fullest. The models cutting edge design not only looks a million dollars but boasts a level of performance, sophistication and luxury to match. The fact that prices start at a mere €90,900, including a state of the art 300hp Mercury V8 Verado engine and a multitude of standard features rarely found on craft costing less than €500,000 only serves to reinforce our stated goal.

The starting point for any great boat is a world-class hull and the 320 GTO's vacuum infused twin-step moulding has a plumb bow and narrow beam to help it cut through the waves with effortless ease. Even with the single 300hp engine it will comfortably reach 40 knots while options up to twin 300hp Verados push this beyond 50 knots.

When you reach your destination, the brilliant cockpit design really comes into its own. The standard fit twin electric folding side terraces drop down to create an unrivalled connection with the sea, while its versatile seating layout can be configured as a sociable dinette, a huge sunpad or three separate rows of forward facing seats.

## *A revolution in outboard-powered sportboats*

With a large wetbar also included as standard as well as a second permanent forward sunpad and stylish hard top, the GTO wants for nothing. And that's before you take into account the comfortable forward cabin and separate ensuite bathroom below decks.

It's this refusal to accept conventional thinking along with the constant pursuit of perfection that allows us to build genuinely innovative craft that appeal to original thinkers and boat enthusiasts alike.

## *Safe passage and freedom to move around*

The safe passage throughout the boat is one of our core values. The high sides of the boat add extra safety for passengers while walking around the deck.

The main deck includes clever opening side terraces, an aft sun pad with sliding backrest, wetbar, integrated hand rails, and fixed side wings. The cockpit is benefited by the side terraces for leisurely anchoring activities, and the T-top provides ample sun coverage over the wet bar and helm. Twin chart plotters with echosounder, Mercury JPO joystick control, and a bow thruster complement the captain's needs, and a Fusion Audio 4 speaker system serves

for guest entertainment. The wraparound windscreen is smartly designed for high-speed open water conditions, and the sunshades for and aft provide additional shelter as needed while at rest. An extended sunpad rests on the foredeck and the dinnette converts into a sunbathing space via flip-up backrests. The bow also holds an integrated anchor and windlass to maximize the available space up front.

SAXDOR | 320 | GTO

*"It is not just the pace of the Saxdor 320 GTO that impresses, it is the composure. The hull never feels remotely flustered or overpowered. When driving fast speed in nearly perfect weather, with just a slight ripple to break the surface tension, and allow the slender forefoot to cleave through the water cleanly but effortlessly"*

*“A spacious lounge area is a great place to relax and socialise while the deep walk around aisle on anti-slip soft deck floor make the Saxdor 320 GTO exceptionally safe for families with young children”*

SAXDOR 320 GTR

*"The Saxdor 320 GTR, 45+ knots, 9 passengers,  
supreme comfort and sensational to drive"*

*"The Saxdor 320 is ideal for the al fresco life, with many options for 9 people to lounge, sunbathe and party. The transformable side-terraces are included in the standard package"*

## *Living on board*

With a large wetbar also included as the optional package. The below decks the 320 GTO and 320 GTR boasts a standard spacious double cabin with separate head, making it both a slick dayboat and an ideal weekender. The fixed double berth has enough headroom to sleep or sit upright, and the separate head has standing headroom, both admirable features for a boat of its length that will also aid movement and comfort for varying users.

The Saxdor 320 GTO and 320 GTR offer the swimming ladder which make the access to the boat easier after a dip into the water. The amazing number and quality of world-class features that we've seamlessly fit into a 32-foot boat – without things feel cramped – makes this boat unique in the world.

SAXDOR|320|GTC

*The ultimate all-weather machine*

# SAXDOR | 320 | GTC

## *The ultimate all-weather machine*

Saxdor Yachts introduces the latest model in its 320 range, the GTC. This 33ft 8in (10.3m) cabin cruiser, which uses the same twin-stepped hull and engine line-up as the previously announced 320 GTO, offers year-round usability thanks to its fully enclosed wheelhouse with sliding roof and multi-function aft doors with a section that drops down into the deck.

The doors are a key component aboard the GTC as they allow the cabin to be sealed off from the elements entirely or open it up to the cockpit to create one large indoor/outdoor living space. The standard fit sunroof and folding terraces add to the GTC's market-leading flexibility and help create a true multi-purpose cruiser.

Sakari Mattila, founder of Saxdor Yachts, says: "The 320 GTO has proved extremely popular with customers even from the drawing board and we have over 300 orders for this model already. The 320 GTC is the next step in our development of this range and it offers total flexibility in all conditions."

## *Drivability like no other*

Low center of gravity, low weight, sharp entry, and a twin stepped hull create a unique driving experience in all kinds of seas and weathers across the world.

The Saxdor 320 GTC comes with a three-engine option, with horse powers from 300 hp to 600 hp. You can either choose the one-engine option with a competitive price and low fuel consumption and keep a comfortable driving experience, or you can choose the powerful twin-engine option 2 x 225 hp or 2 x 300 hp - the Grand Tourismos of the seas.

## *Freedom to move*

Saxdor 320 GTC changes the game of movement on board. With its completely unique concept of a full beam spacious pilot house with easy access to the walk-around bow, movement onboard has never been this easy.

Saxdor believes in the luxury of unused space. By eliminating the side decks from the main deck the wheelhouse is significantly more spacious than key rivals', creating space for a four-person dinette, wet bar and driver-focussed helm station on the starboard side.

Access to the foredeck, which features sunken walkways and a double sun pad, is via a door at the forward end of the wheelhouse, adjacent to the companionway hatch that leads to the lower deck. The aft deck, well protected by the cabin structure, is fitted with a dinette and, in another first for the sector, comes with folding terraces on either side, boosting cockpit space at the touch of a button when the boat is at rest.

## Living on board

Everything has been thoroughly thought through when it comes to living on board.

With a **large and spacious wheelhouse** people can easily walk on the wide corridors while you at the same time can cook for your family and friends. Since we feel that silence is gold, the wheelhouse can be equipped with isolation floating floors, especially developed for Saxdor 320 GTC model.

**The stylish kitchen module** comes with both a sink and a stove, and there is even space for two fridges if you would like to. There is also a nice dinette fitting up to five people and with the aft terrace you can fit in three more people for bigger parties. The dinette is easily changed with an electric operated table to bed for two people.

**The big canvas sunroof** is electrically operated, which makes it easy and smooth to control while driving. Two side opening large windows on both sides are also optional.

**The cockpit** is well designed with excellent ergonomics and the driver-focused helm station is equipped with mobile charger platform for easy charging.

**The lower deck** is bursting with natural light thanks to the two big Lewmar hatches in the coach roof. The hatches can be equipped with a sunshade and a mosquito net. The large and comfortable bed can be equipped with an ergonomic mattress base. And the spacious toilet in the lower deck closes with smart folding door.

The access to the **foredeck** features sunken and safe walkways and a double sun pad, is via a door at the forward end of the wheelhouse. Access to the aft deck from wheelhouse is easy through a big sliding glass door. **Aft deck** is a large open area that can be furnished with sofa and big table.

Enjoy your own beach house with electric folding terraces on either side of aft deck!
